walk down the Valley of Silence,
Down the dim, voiceless valley—alone!
And I hear not the fall of a footstep
Around me—save God and my own!
And the hush of my heart is as holy
As hovels where angels have flown.

Long ago was I weary of voices Whose music my heart could not win; Long ago was I weary of noises That fretted my soul with a din: Long ago I was weary of place Where I met but Human and Sin.

I walked through the world with the worldly:

I c. aved what the world never gave; And I said: "In the world each ideal, That shines like a star in life's wave, Is toned on the shores of the Real. And sleeps like a dream in the grave." And still did I pine for the Perfect.

And still found the False with the True:
I sought 'mid the Human for Heaven,
But caught a mere glimpse of its blue:
And I wept when the clouds of the mortal

And I toiled on, heart-tired of the Human; And I moaned 'mid the mazes of men;
'Tal I knelt long ago at the altar
And heard a voice call me; since then I walked down the Vailey of Silence

Do you ask what I found in the Valley? Tis my trysting-place with the . ivine:
And I fell at the fect of the Holy
And about me a voice said. "Be mire!"
And then rose from the depths of my spirit
An echo: "My heart shall be thine!"

Do you ask how I live in the Valley?
I weep, and I dream, and I pray;
But my tears are all as the dew-drops
That fall on the roses in May;
And my prayer, like a perfume from censer,
Ascendeth to God, night and day. In the hush of the Valley of Silence,

I dream all the songs that I sing, And the music floats down the dim Valley, 'Till each fluds a word for a wing, That to men, like the doves of the Deluge. The message of peace they may bring But far on the deep there are billows.
That never shall break on the beach,
And I have heard songs in the silence.
That never shall float in the speech;
And I have dreams in the Valley.

Foo lofty for language to reach, And I have seen thoughts in the Valley-Ah, me! how my spirit was stirred! And they wear holy veils on their faces— Their tootsteps can scarcely be heard:

They pass through the Valley, like virgins. Too pure for the touch of a word.

Do you ask me the place of the Valley, Ye hearts that are harrowed by care! It li-th atar between mountains, And God and his ang is are there; And one is the dark mount of sorrow.

And one the bright mountain of prayer.
